

Teknikum® Straight Connecting hose

APPLICATIONS

Teknikum Connection hoses are used to absorb vibrations in the pipeline and transportation of abrasive material. Hose is suitable for many circumstances where the hose must resist wear, movements, vibrations and heat expansions.

The hose is made with rubber flanges and uses steel support flanges. Available also with other connector systems according to the applications and conditions. Please check the suitable couplings and flanges options below.

Available in a wide range of customized dimensions and rubber materials (SBR, NBR or EPDM rubber) and for extremely abrasive solutions with CERAMIC inner lining* (*only with PLUS™ connection).

NR rubber hose has antistatic properties, providing electrical conductivity and increased safety against ESD.

Teknikum hoses can also be made of EPDM (chemical resistant) or NBR (oil resistant) rubber materials.

ADVANTAGES

- Vacuum (S) and delivery (D) versions available
- Safe and durable material handling hose
- Excellent resistance to abrasion and weather
- Eliminates vibrations and noise
- ESD protection with Antistatic version
- EPDM and NBR material options
- Quick and easy installation
- Optionally with TITAN™ Select couplings or PLUS™ flanges

TECHNICAL PROPERTIES

Structure

- Tube: black NR 43 ShA
 - smooth
 - wear resistant
 - antistatic
- Reinforcement
 - textile and steel spiral* (*only in SD version)
- Cover: black SBR 60 ShA
 - wear and weather resistant
 - antistatic
- Burst safety factor 2 x working press.

Temperature range

- NR / SBR -40°C - +80°C.
- NBR -40°C - +90°C.
- EPDM -40°C - +100°C.

Electrical properties

Teknikum TITAN™ (NR):

- Conductive cover $R \leq 10^6 \Omega$ / length
- Conductive through the hose wall $R \leq 10^9 \Omega$

SUITABLE COUPLINGS AND FLANGES

Standard hose is made with Teknikum® Flange connection. Supporting flanges or drilling are not included in product prices.

See connecting versions details in:

- **Teknikum® Flange** datasheet.
- **Teknikum® PLUS™ flange** datasheet.
- **Teknikum® TITAN™ Select** datasheet

Optionally we recommend Teknikum PLUS™ flange system, or with Teknikum® TITAN™ Select couplings and Select gaskets.
