

Dear customer and partner,

Teknikum is renewing and unifying its hoses branding and trademarks from May 2020 onwards. Our aim is to promote product families according to usability and the type names are based on that logic.

The update allows us to communicate our product offering more efficiently and clearly, as you can see the hose material and usage features on the spot – while browsing products and at the plant, when the hose has been assembled.

The datasheets will be available on our website for both versions, to support the long lifespan of our products. You can find the new branding and markings included on the upcoming datasheets. The update to delivered hoses will happen gradually during 2020, following stock rotation.

Item numbers

Please note:

- The previous product identification number will remain as part of the product code/ item number/ order reference number. E.g.:
 - NEW 2810BC025 = Teknikum MULTI-TEK™ SD UPE
 - OLD 2810BC025 = MULTI-TEK™ 2810 BC

The following brand naming is valid from this day onwards:

Product trademark update chart

Current hose types	Previous hose types
Chemical hoses	
Teknikum CHEMO-TEK® D EPDM	CHEMO-TEK® 2700 BC
Teknikum CHEMO-TEK® SD EPDM	CHEMO-TEK® 2710 BC
Teknikum MULTI-TEK™ D UPE	MULTI-TEK™ 2800 BC
Teknikum MULTI-TEK™ SD UPE	MULTI-TEK™ 2810 BC
Teknikum MULTI-TEK™ SD UPE Clean	MULTI-TEK™ 2820 WC
Teknikum MULTI-TEK™ SD UPE Pro	MULTI-TEK™ 2830 BC
Teknikum FLUOR-TEK® SD PTFE	(not previously available)
Teknikum FLUOR-TEK® SD FEP	Teknikum FLUOR-TEK® 2920 FEP
Petrochemical hoses	
Teknikum FUEL-TEK® D	FUEL-TEK® 2400 BC
Teknikum FUEL-TEK® SD	FUEL-TEK® 2410 BC
Teknikum FUEL-TEK® D Arctic	FUEL-TEK® Arctic 2400 LT
Teknikum FUEL-TEK® SD Arctic	FUEL-TEK® Arctic 2410 LT
Teknikum FUEL-TEK® Mobil	(previously only available in Germany)
Teknikum FUEL-TEK® SD Gas LPG/LNG	ALKA-TEK™ 3462
