Teknikum WEAR SAFE™ Black 60

rubber lining compound

APPLICATIONS

Natural rubber and butadiene rubber mixture based black soft rubber, which is highly resistant to various abrasive slurries used at mining environment and other process industry applications.

The hardness 60 ShA is great for tear resistance supported by excellent resilience to stand flexible surface for material flow.

Developed for the mining industry, e.g. material transfer at concentration plants and tailings pipelines.

Autoclave vulcanization.

ADVANTAGES

- Great wear resistance
- Very strong adhesion to steel
- Good strength values
