

TEKNIKUM® Heavy duty cable protector

APPLICATIONS

Teknikum® Heavy duty cable protector is designed for protecting cables on construction site. The protector is made of durable recycled rubber and can withstand extremely heavy load, such as caterpillars and trucks.

Multiple cable protectors can be easily attached to one another to create wider cover.

ADVANTAGES

- Durable and wear resistant
- Safeguards cables
- For heavy duty construction sites
- Tested by construction professional

TECHNICAL PROPERTIES

Structure

- Black rubber including recycled rubber
- 3 cable grooves (25mm)

Temperature range

- 40°C... +70°C

ENVIRONMENTAL RESISTANCE

- Weather-resistant

MANUFACTURER

Teknikum Oy (Business ID FI07645274),
Nokiankatu 1, 38210, Sastamala, Finland
