

TEKNIKUM® Plastic plugs

Teknikum® Plastic plugs are made from PVC plastic. They are available in grey, white and black, depending on their size and shape.

Plastic plugs can be used, for example, to prevent abrasion or for plugging holes. The models with the hole can be fastened by placing a screw through the plug.

ADVANTAGES

- Durable
- For safeguarding surfaces or covering small holes
- Three color options

TECHNICAL PROPERTIES

Structure

- PVC

Temperature range

- 40°C... +60°C

ENVIRONMENTAL RESISTANCE
